

Vending Machine

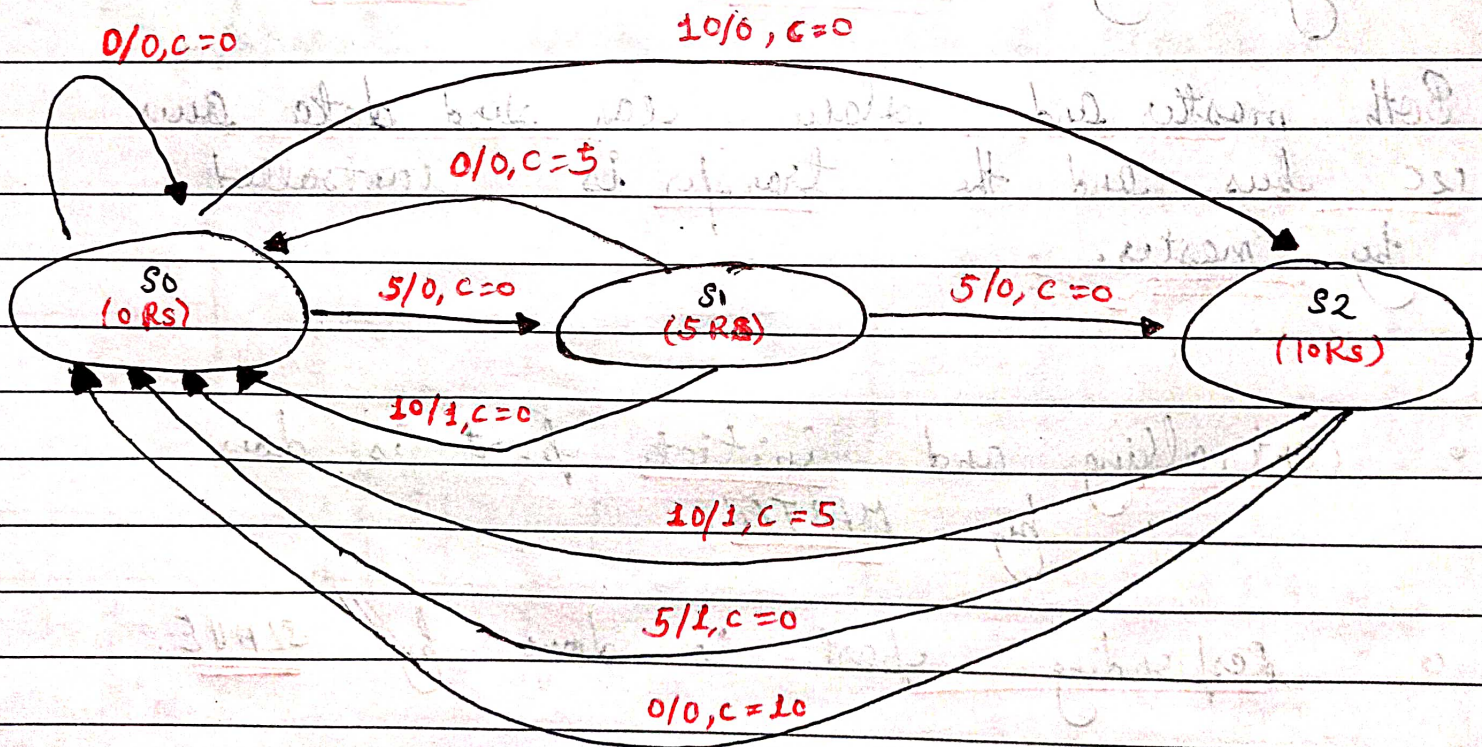

- Vending machines are getting popular day by day. This project simulates the way an ideal vending machine would handle transactions.

- Mealy Machine State Diagram

- Assumptions are:-
 - 1 product held by vending machine.
 - product cost \Rightarrow ₹ 15
 - currency denominations ₹ 5 and ₹ 10

Note:

Format: Input / output, change
Values in animals (NOT in binary)

The product water bottle costs 15 Rs.
